May be jumping the gun, but I doubt it will move that fast. I think we can let the IOAA decide based on who is where and when they clear it. The response will come from whomever is the PDAA.

We could leave it blank for now?

Also - we can ask for an extension on this if you need it.

Dahnish, it says the response will come from Wayne, though, right (he will still be acting on the 27th is why, I assume)?

Just to help with the formatting, I've started a blank response. See attached.

See below. Can you take a shot at preparing a draft. Should be short and sweet, e.g., thanks for reminding us to consider the 2011 recommendations. Had never occurred to us.

Subject: ORD Response to Formaldehyde Stakeholder Letter

Hi Kris,

We received an AX control in CMS asking to prepare a draft response to come from the ORD AA to the attached letter sent to the Administrator. The letter is from the American Chemistry Council's Formaldehyde Panel and other industry stakeholders' related to the formaldehyde assessment. I noted that you were also copied on the original email - Liz indicated you would be the best person to draft the response.

If you could send the draft language to myself and Anna Hassan, we can format the text into a letter for Wayne's signature. The due date for our response to be in CMS is 1/27, but we can ask for an extension if needed.

Thanks,
Rachel Matney (she/her/hers)
